# 2017 omero CHARDONNAY willamette valley

As per usual, our Willamette Valley Chardonnay is mostly free of Dijon clones. It's primarily heirloom Chardonnay clones, brought together to create a wine with bright acidity, complex aromatics and a structured elegance that you don't often find in wines at this price point. Fermented and aged in neutral oak to allow the fruit expression to really shine.

|                 |   |
